

# McClain Farms and Ag. Services Traveling Products Showcase

Tom McClain, Dr. Andrew Skadberg (the bus driver), Craig Lee

## Introduction

We understand that “The Solution” to many of the world’s challenges has to do with educating people and providing opportunities for people to get re-connected to nature, and for them to realize there are excellent alternatives in agriculture that actually help heal the Earth, and people, while also providing higher returns economically to farmers and also to communities and society.

## Purpose

The McClain Farms Ag. Services Traveling Products Showcase, will bring products , education and opportunity to help foster sustainable agriculture and create vehicles of integration into existing markets and help in the creation of new markets.

## Vision for McClain Farms and Ag. Services Traveling Products Showcase

The Traveling Products Showcase is, in essence, a marketing platform for expanding the impact and exposure of Hemp, alternative products and also ways to farm. Another benefit is to develop a large network of like minded individuals to help develop and market future products related to hemp and sustainability.

Budget Item	Description	Cost
Used 2002 RV	Fleetwood: American Eagle	\$82,500
Fuel in RV	Mileage, fuel (5 miles/gal.) 1500 miles/wk. x 15 = 22,500 miles 5 mi./gal = 4,500 gals x \$3/ gal = \$13,500	\$13,500

- History, culture and commerce
- Hemp and other alternative crops and practices
- Environment, landscapes, weather, etc.

### **\*Symbiotic Ag Products:**

#### Who We Are

Symbiotic Ag Products creates products that work with soil, plant, and wallet. Our one of a kind technology will blow your socks off.

#### What We Do

Symbiosis AGx has the power to Restore, Revitalize and Revolutionize how you grow your plants, radically improving your harvest.

#### Why We Do It

The Symbiotic Ag Team is committed restoring soil through organic, environmentally conscience means, in an effort to return our ground to a state of health and vigor.

### **\*\*\*Dr. Fredrico's Wellnes Eentials:**

A line of products derived from Hemp.

1. Healing/Wellness essential oils, etc.
2. Hemp Tea blends
3. Soaps
4. Edibles

## **The Proposal**

**McClain Farms AG is in need of investment capital to complete the creation of the company and fund the first phase of product marketing and development.**

**McClain Farms has been given the opportunity to be the first entity to create a national presence for Symbiosis Ag, a innovative bio stimulant that is gaining rapid market penetration in all areas of usage from: Fertilization, Pest eradication and weed infestation. The founder, David Pavich, has worked on refining the formulation over the past 13 years and the main component, Asian Carp, is helping alleviate a major destructive force in the US northern river systems.**

McClain Farms is also creating a line of Hemp based vaping products(Well2Vape) to introduce to the Multi-billion dollar vape market.

McClain Farms is representing Dr. Justin Fredrico's line of existing products and services.

McClain Farms AG is offering 10% equity in the company in exchange for:

**Capital injection of \$65,000 USD. And a vehicle purchase loan of \$82,500.**

These funds are for the expenses related to travel, marketing, production and living expenses.

McClain Farms will pay back the **\$82,500** ear marked for the purchase of a 2002 American Eagle recreational vehicle at a interest rate of **Eight Percent per Annum** and the principal amount of **\$82,500, not including taxes or any other external cost** . Payment including interest will be calculated from the inception date of the loan and will terminate no more than 24 months after inception. Failure to pay as agreed will result in repossession of the vehicle to the investor.

Payments will be made from profits generated by the activities of McClain Farms Ag Services, under the direction of Thomas K. McClain., who will act as sole responsible party obligated with repayment

Sincerely,

Thomas K. McClain
